Caring for you, delivering to you!

When you depend on a regular supply of stoma or continence products, Fittleworth is here for you

We have been supplying specialist products since 1984, working closely with specialist nurses to make sure you receive the very best products for your needs.

We then deliver your order personally, direct to your door.

Orders can be placed by sending us your prescription in the Freepost envelope provided, by calling our Freephone number **0800 378 846** or through our website. You do not need to visit your GP practice to collect your prescription, your GP can send it to us electronically, saving you time, or we can collect the prescription from your GP if they agree.

We will take care of the rest, delivering the right products, discreetly on time and without fuss.

Free Sampling Service

Samples are only available on nurse instruction, so if you would like to try an alternative product, please speak to your specialist nurse or healthcare provider.
